EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In the claims:

Cancel claims 13 through 19 from the claims listing. [Claims 13 through 19 are drawn to an invention previously non-elected without traverse AND cancellation thereof has already been requested by applicant's amendment filed on July 8, 2003.]

3. Upon reconsideration in view of applicant's arguments and amendments filed on June 17, 2004, the examiner hereby withdraws the new matter objections and the rejections of the claims under 35 U.S.C. 112, second paragraph, as cited in the previous Office action on the merits.

In particular, applicant's arguments regarding the new matter objection have been found persuasive by the examiner.

While applicant's arguments regarding the term "therewith" as used in claim 1 appear to miss the point, since the examiner never questioned that this term exists or has the meaning cited in the applicant's arguments, the examiner hereby nevertheless withdraws the previously cited rejection of claims 1 through 12 under 35 U.S.C. 112, second paragraph, with regard to the use of this term predicated on the examiner's assumption that the limitation "non-reactive therewith" in lines 5-6 of base claim 1 is understood by the examiner to be synonymous with the limitation "non-reactive with component A".
